

FEMUR

- AP (obtain two images if unable to include hip and knee joints on one image)
- Frog-leg Lateral Hip
- Lateral Distal Femur

TRAUMA FEMUR (or if patient unable to flex hip and abduct thigh)

- AP (obtain two images if unable to include hip and knee joints on same film)
- Crosstable Lateral Hip
- Crosstable Lateral Distal Femur

KNEE

- AP
- AP in Internal Rotation (AP Medial Oblique)
- Lateral

TRAUMA KNEE

- AP
- AP in Internal Rotation (AP Medial Oblique)
- Crosstable Lateral

PATELLA

- AP Knee
- Lateral Knee
- Tangential Projection Settegast Method (Sunrise)

LOWER LEG (TIBIA/FIBULA)

- AP (Large FOV Knee and Leg)
- AP (Small FOV Ankle)
- Lateral (Large FOV Ankle and Leg)
- Lateral (Small FOV Knee)

ANKLE

- AP (centered 1 to 2 cm above ankle joint)
- AP Medial Oblique for Mortise
- Lateral

CALCANEUS (OS CALCIS)

- Axial
- Lateral

FOOT

- AP Axial
- AP in Internal Rotation (AP Medial Oblique)
- Lateral (rotate to see base of 5th metatarsal)

TOES

- AP
- AP in Internal Rotation (AP Medial Oblique)
- Lateral of affected toe
